I'm finishing my web development studies after having worked as a live audio engineer for the last 8 years. Over this period I developed my communication, problem solving and team working skills. I enjoy learning about new technologies, languages or frameworks and I'm interested in all aspects of web development.

## Skills

Backend development
Frontend development
Live audio, postproduction and studio recording

## EDUCATION

### CFGS Desarrollo de Aplicaciones Web

*IES Tetuán de las Victorias*
